Session II

Test	Day 1	Day 2	Lab	Time
Geometry (2 days) Algebra (2 days)	12-11-18	12-12-18	012	9am
Biology (1 day) US History (1 day) Civics (1 day)	12-13-18	N/A	012	9am

Request to Register (RTR) Forms

- ALL Students who need to take an EOC must fill out an EOC Request to Register form. RTR forms are in Guidance with Mrs. Verdino.
- Submitting an EOC Request to Register form is the first step in obtaining an appointment and securing a seat in the Lab.
- Because there is limited seating, students will be assigned to a specific test date. Student Lab Assignments will be updated daily and posted on the bulletin board in Guidance.

Test Day Instructions

- Students must remember the specific day they have been scheduled to test.
- Students should bring a form of Identification to the Lab on the day they are scheduled to test.
- Students should arrive no later than 9am to the assigned lab on the scheduled day.

Missed Testing Appointments

- Students who miss their scheduled appointment should see Mrs. Verdino in Guidance to Request Registration for the next scheduled EOC Exam Administration.
- Because of limited seating, students who have not registered using the RTR form will not be admitted to the testing lab on testing days.

Test Specifics of Computer-Based EOCs

- The Algebra I and Geometry EOCs are both TWO-DAY TESTS. Students must complete both segments in Two Consecutive Days. Scores will not be calculated without both segments showing as completed.
- Biology/US History/Civics are all ONE-DAY TESTS.
