

Science Instruction & Intervention for Grades 3 - Biology

Built on a gaming platform for **ALL** students - especially struggling readers, ELL/ESOL, and ESE students

Inclusive. Engaging. Effective.

- **950+ science activities** – 3 activities per standard (developing, achieving, exceeding) specifically *crafted* to FL science standards using CPALMS & FL DOE item specs.
- **Assessment activities** for each grade-level (for diagnostic, formative, summative use) and **SSA/EOC Prep activities** with standards-based line-item analysis reporting
- **100+ simulations** – great for 5E instruction (engage, explore), inquiry-based lessons, and virtual labs
- **Inclusive science instruction and intervention** – every Penda Science activity offers read-aloud, flexible visual display options, and language translation (60+ languages) to better support struggling readers, ELL/ESOL, and ESE students

Penda Saves Teachers Time:

- Activities are **custom-aligned** to your Sarasota science instructional focus guides – standards, sequence, and pacing!
- Activities are **automatically assigned to students weekly**. Teachers can also assign suitable work to a whole class, intervention group, or even an individual student.
- Activities are **auto-graded**, saving teachers valuable time while providing students with instant feedback.
- Teachers receive a standards-based 'Class Mastery' **auto-report weekly via email** showing every student's progress towards standards mastery.
