

# What is Adopt-A-Class?

Adopt-A-Class is a program that increases opportunity for student success by empowering teachers with a community partner *and* funds to purchase resources for the classroom.

Parents or other individuals are welcome to adopt a class. 100% of the money goes directly to that class to purchase items including computer software, learning centers, materials to differentiate instruction, supplies, and more!

-OR-

If you know a Business or Community Group looking for the opportunity to become more involved in our local schools, Adopt-A-Class fits the bill. By adopting a class and making a tax-deductible contribution of \$100, the adopting local business will receive valuable exposure amongst students and their families.

## What does the Adopter Receive?
