CONTACT: SPECTREROBOTICS8753@GMAIL.COM 941-237-0391

If you love robotics, business, graphic design, or engineering and are interested in joining SPHS' Spectre Robotics team next year, this boot camp is for you! In this camp, Spectre Robotics team members will teach valuable skills that are necessary for the team, including laser cutting, 3D printing, coding, business management, graphic design, CAD design, and robot design and development. Get a jumpstart on crucial skills before the school year begins in August!

SKILLS INCLUDE:

- Business management
- Marketing
- Manufacturing
- Programming
- Graphic design
- Social media management
- Fundraising
- Robot development
