RE: **Value-based Diabetes, Blood Pressure, and Cholesterol Medications**

Florida Blue Members on the school-district provided plan can get **generic** maintenance medications at no cost to treat **Diabetes, High Blood Pressure** and **High Cholesterol**. Certain brand name insulin is also available at no cost. Refer to the BCBS Medication Guide at the below link for the list of drugs available at no cost to you. (Note that regular co-pays apply for brand name drugs and for drugs in the depression and respiratory conditions categories that appear on this list):

<http://www.bcbsfl.com/DocumentLibrary/Providers/Content/MedGuide.pdf>

This list may help guide you and your doctor in selecting an appropriate medication for you, which may help reduce your out-of-pocket costs. The drug formulary is regularly updated; visit www.floridablue.com for the most up-to-date information or by calling the customer service number listed on your member ID card.
