Management's Discussion and Analysis
June 30, 2019

The management of the School Board of Sarasota County, Florida (the District) has prepared the following discussion and analysis to (a) assist the reader in focusing on significant financial issues; (b) provide an overview and analysis of the District's financial activities; (c) identify changes in the District's financial position; (d) identify material deviations from the approved budget; and (e) highlight significant issues in individual funds.

Because the information contained in the Management's Discussion and Analysis (MD&A) is intended to highlight significant transactions, events and conditions, it should be considered in conjunction with the District's financial statements and notes to the basic financial statements.

FINANCIAL HIGHLIGHTS

Key financial highlights for the 2018-19 fiscal year are as follows:

- General revenues totaled \$554,922,214, or 90 percent of all revenues. Program specific revenues in the form of charges for services, operating grants and contributions, and capital grants and contributions totaled \$62,483,928, or 10 percent. Total revenues increased by \$30,304,581 from \$587,101,561 in fiscal year 2017-18 to \$617,406,142 in fiscal year 2018-19. The change is primarily attributed to the increase in the property and sales tax revenues, investment income, and grant receipts for emergency impact aid, for Hurricane Maria, FEMA and Sarasota County reimbursements for Hurricane Irma and the Safe Schools and Building Funds grant appropriated in SB7026-Majory Stoneman Douglas High School Public Safety Act (MSD).
- Expenses totaled \$596,460,395, only \$62,483,928 of these expenses were offset by program specific charges, with the remainder paid from general revenues. Total revenues exceeded total expenses by \$20,945,747. Total expenses increased \$21,302,102 or 4 percent, from \$575,158,293 in fiscal year 2017-18. This change is primarily attributed to an average 3.9 percent negotiated salary settlement, increased benefits costs, safety and security upgrades including a new school police department to comply with SB7026 MSD.
- The expenses in the District's proprietary funds increased by \$6,567,505 from \$53,334,369 in fiscal year 2017-18 to \$59,901,874 in fiscal year 2018-19, as a result of increased medical claims. Charges for services revenues decreased by \$947,001 from \$56,521,549 in fiscal year 2017-2018 to \$55,574,548 in fiscal year 2018-19. This change is primarily attributed to a decrease in workers compensation rate.
- The unassigned fund balance of the General Fund, representing the net current financial resources available for general appropriation by the Board, totaled \$58,871,103 at June 30, 2019 or 12.95 percent of General Fund total expenditures and transfers out. The Ending Financial Condition Ratio as of June 30, 2019 was 14.71 percent.

OVERVIEW OF THE FINANCIAL STATEMENTS

The basic financial statements consist of three components:

- Government-wide financial statements
- Fund financial statements
- Notes to the basic financial statements

In addition, this report presents certain required supplementary information, which includes management's discussion and analysis.

GOVERNMENT- WIDE FINANCIAL STATEMENTS

The Government-wide financial statements provide both short-term and long-term information about the District's overall financial condition in a manner similar to those of a private-sector business. The statements include a statement of net position and a statement of activities that are designed to provide consolidated financial information about the governmental activities of the primary government presented on the accrual basis of accounting. The statement of net position provides information about the government's financial position, its assets, deferred outflows of resources, liabilities, and deferred inflows of resources using an economic resources measurement focus. The difference between the assets, deferred outflows of resources, liabilities, and deferred inflows of resources, the net position, is a measure of the financial health of the District. The statement of activities presents information about the change in the District's net position, the results of operations, during the fiscal year.

The Government-wide statements present the District's activities in two categories:

- Governmental activities – This represents most of the District's services including its educational programs: basic, vocational, adult and exceptional education. Support functions such as transportation and administration are also included. Local property taxes and the State's education finance program provide most of the resources that support these activities.
- Component units – The District presents ten separate legal entities in this report. Although legally separate organizations, the component units are included in this report because they meet the criteria for inclusion provided by generally accepted accounting principles. Nine of these organizations are charter schools. Financial information for these component units is reported separately from the financial information presented for the primary government. The Financing Corporation for the School Board of Sarasota County (Corporation), although also legally separate, was formed to facilitate financing for the acquisition of facilities and equipment. Due to the substantive economic relationship between the Board and the Corporation, the Corporation is included as an integral part of the primary government. Please refer to Note 1 to the basic financial statements for more information on the District's component units.

Over a period of time, changes in the District's net position are an indication of improving or deteriorating financial condition. This information should be evaluated in conjunction with other non-financial factors, such as changes in the District's property tax base, student enrollment, and the condition of the District's capital assets including its school buildings and administrative facilities.

FUND FINANCIAL STATEMENTS

Fund financial statements are one of the components of the basic financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements and prudent fiscal management. State law establishes certain funds, while others are created by legal agreements, such as bond covenants. Fund financial statements provide more detailed information about the District's financial activities, focusing on its most significant or "major" funds rather than fund types. This is in contrast to the entity-wide perspective contained in the Government-wide statements.

All of the District's funds may be classified within one of three broad categories:

Governmental Funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the Government-wide financial statements. However, the governmental funds utilize a spendable financial resources measurement focus rather than the economic resources measurement focus found in the Government-wide financial statements. This financial resources measurement focus allows the governmental fund statements to provide information on near-term inflows and outflows of spendable resources as well as balances of spendable resources available at the end of the fiscal year. Consequently, the governmental fund statements provide a detailed short-term view that may be used to evaluate the District's near-term financing requirements. This short-term view is useful when compared to the long-term view presented as governmental activities in the Government-wide financial statements. To facilitate this comparison, both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures, and changes in fund balances provide a reconciliation of governmental funds to governmental activities.

Proprietary Funds. Proprietary funds may be established to account for activities in which a fee is charged for services. The District maintains one type of proprietary fund, the internal service fund to account for the District's self-insurance programs. Since these services predominantly benefit governmental rather than business-type functions, the internal service funds have been included within governmental activities in the Government-wide financial statements.

Fiduciary Funds. Fiduciary funds are used to report assets held in a trustee or fiduciary capacity for the benefit of external parties, such as student activity funds. Fiduciary funds are not reflected in the Government-wide statements because the resources are not available to support the District's own programs. In its fiduciary capacity, the District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes. The District uses agency funds to account for resources held for student activities and groups.

GOVERNMENT- WIDE FINANCIAL ANALYSIS

Net position may serve over time as a useful indicator of a government's financial position and provides a perspective of the District as a whole. The following is a summary of the District's net position as of June 30, 2019, compared to net position as of June 30, 2018:

Net Position, End of Year				
	Governmental Activities		Increase (Decrease)	Percentage Change

Total deferred inflows	<u>48,808,493</u>	<u>32,940,521</u>	<u>15,867,972</u>	48%

Total net position	<u>\$ 824,655,380</u>	<u>\$ 803,709,633</u>	<u>\$ 20,945,747</u>	3%

The largest portion of the District's net position reflects its investment in capital assets (e.g., land, buildings, furniture and equipment), less any related debt still outstanding. The District uses these capital assets to provide services to students; consequently, these assets are not available for future spending.

As a result of implementing GASB 68, *Accounting and Financial Reporting for Pensions* and GASB 75, *Accounting and Financial Reporting for Postemployment Benefits (OPEB) Other Than Pensions*, the unrestricted portion of the District's net position as of June 30, 2019 and June 30, 2018 reflects a negative balance. The net pension and OPEB liabilities and deferred outflows and inflows related to pensions and OPEB represents more than 100 percent of the negative unrestricted net position. Thus, the unrestricted net position excluding pensions and OPEB as of June 30, 2019 and June 30, 2018 is \$49,503,390 and \$62,380,839 respectively.

The restricted portion of the District's net position represents resources that are subject to external restrictions on how they may be used.

Revenues by Source – Governmental Activities – in Millions of Dollars

Expenses – Governmental Activities – in Millions of Dollars

Overall total revenues increased by \$30,304,581, or 5 percent from the fiscal year ended June 30, 2018. The change is primarily attributed to the increase in the property and sales tax revenues, investment income, and grant receipts for emergency impact aid, for Hurricane Maria, FEMA and Sarasota County reimbursements for Hurricane Irma and the Safe Schools and Building Funds grant appropriated in SB7026 (MSD).

Total expenses increased by \$21,302,102, or 4 percent from the fiscal year ended June 30, 2018. This change is primarily attributed to an average 3.9 percent negotiated salary settlement, increased benefits costs, safety and security upgrades including a new school police department to comply with SB7026 (MSD).

In total, net position increased \$20,945,747, which represents a 3 percent increase over fiscal year 2017-2018.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

The District completed the year with a total governmental fund balance of \$198,894,043, an increase of \$31,077,251 or 19 percent from last year's ending fund balance of \$167,816,792. The increase in District fund balance is primarily attributed to revenue received from discretionary property taxes as a result of increased assessed valuation and a change in capital outlay from large capital projects to safety and security upgrades such as perimeter fencing and single point of entry.

Major Governmental Funds

General Fund

The General Fund is the primary operating fund for the District. Presented below is an overall analysis of the General Fund as compared to the prior year:

This increase is primarily attributed to increased funding from capital outlay and revenue received from discretionary property taxes as a result of increased assessed valuation. It should be noted that \$1,679,023 of ending fund balance has been encumbered for specific projects.

Expenditures decreased by \$19,467,215, or 48 percent primarily due to a focus on safety and security improvements over large construction projects. Other financing uses increased by \$1,962,629 due to an increase in state pass-through funding to charter schools. It should be noted that \$9,306,476 of fund balance has been encumbered for specific projects.

GENERAL FUND BUDGETARY HIGHLIGHTS

During the fiscal year, the District revised its budget and brought three amendments to the Board. These amendments were needed to adjust revenues and direct resources where needed. The Board approves the final amendment to the budget after year-end. The original 2018-19 budget was prepared on a conservative basis as the State of Florida had experienced multiple years of revenue shortfalls and corresponding proration of state funding were imposed on school districts. Budgeted expenditures decreased \$4,202,223 from the original budget due to savings from a hiring freeze. Actual expenditures were \$6,204,120 below the final amended expenditure budget.

CAPITAL ASSETS AND LONG-TERM DEBT

At June 30, 2019, the District had \$963,950,904 invested in a broad range of capital assets, including land, improvements, buildings, and equipment; net of accumulated depreciation. This amount represents a net decrease (including additions, deductions and depreciation) of \$17,405,996, or 2 percent, from last fiscal year due primarily to no new capital lease agreements for equipment.

ECONOMIC FACTORS

The unemployment rate in June 2019 for Sarasota County was 3.4 percent, which is a decrease of 0.3 percent from June 2018. The State's average unemployment rate in June 2019 was 3.5 percent. Florida's unemployment rate has decreased 0.4 percent while the nation's unemployment rate has decreased 0.4 percent from the prior year.

The State of Florida funds the District through the Florida Education Finance Program (FEFP) which is based on student enrollment. The District has continued to see an incremental increase in funding, but revenue growth has not kept pace with the change in the Consumer Price Index. Student enrollment increased 286.16 FTE in fiscal year 2018-2019. This growth in student enrollment has contributed to a steady increase in revenue generated by the FEFP.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE
GOVERNMENT-WIDE STATEMENT OF ACTIVITIES
For the Fiscal Year Ended June 30, 2019

Net Change in Fund Balances - Governmental Funds **\$ 31,077,251**

Amounts reported for *governmental activities* in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation expense exceeds capital outlays in the current period.

Capital Outlay	\$ 30,330,298	
Less, Depreciation Expense	(47,562,779)	
		(17,232,481)

The loss on disposal of capital assets during the current period is reported in the statement of activities. In the government funds, the costs of these assets was recognized as an expenditure in the year purchased. Thus the change in net position differs from the change in fund balances by the undepreciated cost of the disposed assets.

(173,515)

Repayment of debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. This is the amount of repayments.

Certificates of Participation	\$ 11,580,000	
State School Bonds	641,000	
Racetrack Bonds	-	
Capital Leases	9,906,839	
		22,127,839

Premiums on new debt issues and losses on debt refundings are reported when issued as expenditures and other financing sources in the governmental funds, but are deferred and amortized as expenses over the life of the debt in the statement of activities.

Unamortized Loss on Debt Refunding:		
Current Year	\$ 5,298,451	
Less, Prior Year	(6,193,467)	
Net Change in Deferred Loss on Refunding		(895,016)
Unamortized Premiums:		
Prior Year	\$ 1,287,471	
Less, Current Year	(879,812)	
Net Decrease in Revenue from Unamortized Premiums		407,659

The net change in the liability for early retirement benefits is reported in the government-wide statements but not in the governmental funds until due.

75,030

Interest on long-term debt is recognized as an expenditure in the governmental funds when due, but is recognized as interest accrues in the statement of activities.

Prior Year	\$ 179,580	
Less, Current Year	(74,165)	
Net Reduction in Expenses from Accrued Interest Payable		105,415

In the statement of activities, the cost of compensated absences is measured by the amounts earned during the year, while in the governmental funds expenditures are recognized based on the amounts actually paid for leave used. This is the net amount of vacation and sick leave earned in excess of the amount used in the current period, net of \$6,434 recorded in the internal service funds.

(1,423,367)

Internal service funds are used by management to charge the cost of insurance to individual funds. The net revenue of internal service funds is reported with governmental activities.

(868,568)

Governmental funds report District pension contributions as expenditures. However, in the statement of activities, the cost of pension benefits earned net of employee contributions is reported as a pension expense.

FRS Pension Contribution	\$ 17,321,614	
HIS Pension Contribution	4,412,472	
FRS Pension Expense	(27,394,275)	
HIS Pension Expense	(6,115,287)	
		(11,775,476)

The net change in the liability for postemployment healthcare benefits is reported in the government-wide statements, but not in the governmental fund statements

(479,024)

Change in Net Position of Governmental Activities **\$ 20,945,747**

SCHOOL BOARD OF SARASOTA COUNTY, FLORIDA
Notes to the Basic Financial Statements
June 30, 2019

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

➤ **Reporting Entity**

The School Board of Sarasota County, Florida, (the "District") has direct responsibility for operation, control, and supervision of District schools and is considered a primary government for financial reporting. The Sarasota County School District is considered part of the Florida system of public education. The governing body of the school district is the Sarasota County District School Board (Board) that is composed of five elected members. The appointed Superintendent of Schools is the executive officer of the Board. Geographic boundaries of the District correspond with those of Sarasota County.

Criteria for determining if other entities are potential component units that should be reported within the District's basic financial statements are identified and described in the Governmental Accounting Standards Board's (GASB) *Codification of Governmental Accounting and Financial Reporting Standards*, Sections 2100 and 2600. The rationale for including charter schools in the District's financial statements is pursuant to Article VII, Section 9 of the Florida Constitution and Section 1002.33(9)(I), Florida Statutes, which provides that charter schools do not have the constitutional authority to levy taxes, making charter schools fiscally dependent on school districts. Because it may be misleading to exclude charter schools, GASB Sections 2100 and 2600 provide the option to consider charter schools as component units of school districts.

Based on the application of these criteria, the following component units are included within the District's reporting entity:

- **Blended Component Unit** The Financing Corporation for the School Board of Sarasota County (Corporation), was founded to facilitate financing for the acquisition of facilities and equipment as further discussed in Note 8. Due to the substantive economic relationship between the Board and the Corporation, the financial activities of the Corporation are included in the accompanying basic financial statements. Separate financial statements for the Corporation are not published.
- **Discretely Presented Component Units** The component units' columns in the government-wide financial statements include the financial data of the District's other component units. For financial reporting purposes, nine charter schools are included in the financial statements of the District as discretely presented component units. These schools operate under a charter approved by their sponsor, the Board. The component units are as follows:

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Island Village Montessori Charter School, Inc., Sarasota Suncoast Academy, Inc., Student Leadership Academy of Venice, Inc., Imagine School at North Port, Inc., Sarasota Military Academy, Inc., Sarasota School of Arts and Sciences, Inc., Sarasota Academy of the Arts, Inc., and Suncoast School for Innovative Studies, Inc., (charter schools) are separate not-for-profit corporations organized pursuant to Chapter 617, Florida Statutes, and Section 1002.33, Florida Statutes. Imagine School at Sarasota, LLC, doing business as Imagine School at Palmer Ranch is organized as a limited liability company pursuant to Chapter 605, Florida Statutes, and Section 1002.33, Florida Statutes. The Board is responsible for the prudent use of the public funds received for providing an appropriate educational program for its targeted enrollment. The financial data reported on the accompanying statements was derived from the charter schools' audited financial statements for the fiscal year ended June 30, 2019. Audits of the charter schools for the fiscal year ended June 30, 2019, were conducted by independent certified public accountants and are filed at the District's administrative office at 1960 Landings Boulevard, Sarasota, FL 34231.

The District considered the two SKY Academy charter schools located in Venice and Englewood for inclusion as component units of the District. However, they are organized under an existing not-for-profit organization and are not legally separate entities but a division of the South County Family YMCA, Inc., and therefore, are excluded from the District's reporting entity.

➤ **Basis of Presentation**

Government-wide Financial Statements - Government-wide financial statements, including the statement of net position and the statement of activities, present information about the District as a whole. These statements include the nonfiduciary financial activity of the primary government and its component units.

Government-wide financial statements are prepared using the economic resources measurement focus. The statement of activities presents a comparison between direct expenses and program revenues for each function or program of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and are thereby clearly identifiable to a particular function. Depreciation expenses are allocated to functions/programs of the primary government. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a

particular program. Revenues that are not classified as program revenues are presented as general revenues, with certain exceptions.

The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District.

The effects of interfund activities have been eliminated from the government-wide financial statements. Interfund transactions, consisting of transactions involving the internal service funds, were eliminated by allocating the change in net position of internal service funds in direct proportion as they were charged as expenses to the various functions.

Fund Financial Statements - Fund financial statements report detailed information about the District in the governmental, proprietary, and fiduciary funds. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is reported in a separate column. Nonmajor funds are aggregated and reported in a single column. Because the focus of governmental fund financial statements differs from the focus of government-wide financial statements, a reconciliation is presented with each of the governmental fund financial statements. The District reports the following major governmental funds:

- General Fund - to account for all financial resources not required to be accounted for in another fund, and for certain revenues from the State that are legally restricted to be expended for specific current operating purposes.
- Debt Service – Other Debt Service Fund – to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest and related costs on the long-term certificates of participation and capital leases.
- Capital Projects – Local Capital Improvement Tax Fund - to account for the financial resources generated by the local capital improvement tax levy to be used for educational capital outlay needs, including new construction, and renovation and remodeling projects.
- Capital Projects – Other Capital Projects Fund – to account for the financial resources such as sales tax proceeds, impact fees, and certificates of participation, which are used for capital outlay needs.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Additionally, the District reports the following proprietary and fiduciary fund types:

- Internal Service Funds - to account for the District's individual self-insurance programs.
- Agency Funds - to account for resources of the school internal funds, which are used to administer moneys collected at the District's schools in connection with school, student athletic, class, and club activities.

➤ **Basis of Accounting**

Basis of accounting refers to when revenues and expenditures, or expenses, are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

The government-wide financial statements are prepared using the accrual basis of accounting, as are the proprietary funds and fiduciary funds financial statements. Revenues are recognized when earned and expenses are recognized when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized in the year for which they are levied.

Revenues from grants, entitlements, and donations are recognized in the fiscal year in which all eligibility requirements imposed by the provider have been satisfied.

Governmental fund financial statements are prepared using the modified accrual basis of accounting. Revenues, except for certain grant revenues, are recognized when they become measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. Significant revenues susceptible to accrual include ad valorem taxes, reimbursable-type grants and interest on investments. The District considers revenues to be available if they are collected within 60 days of the end of the current fiscal year. When grant terms provide that the expenditure of resources is the prime factor for determining eligibility for Federal, State, and other grant resources, revenue is recognized at the time the expenditure is made.

Under the modified accrual basis of accounting, expenditures are generally recognized when the related fund liability is incurred, except for principal and interest on long-term debt, claims and judgments, early retirement incentive payments, pensions, other postemployment benefits, and compensated absences, which are recognized when due. Allocations of cost, such as depreciation, are not recognized in governmental funds.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the proprietary funds' principal ongoing operations. The principal operating revenues of the District's internal service funds are charges for workers' compensation, employee health insurance and employee dental insurance. Operating expenses include insurance claims, excess coverage premiums, employee compensation and purchased services. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed. When committed, assigned, or unassigned resources are available for use in governmental fund financial statements, it is the District's policy to use committed resources first, followed by assigned resources, and then unassigned resources as they are needed.

The charter schools are accounted for as governmental organizations and follow the same accounting model as the District's governmental activities.

➤ **Use of Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

➤ **Deposits and Investments**

Cash balances from the majority of funds are pooled for investment purposes. Earnings from such investments are allocated to the respective funds based on applicable cash participation by each fund. The investment pools are managed such that all participating funds have the ability to deposit and withdraw cash as if they were demand deposit accounts, and therefore all balances representing participants' equity in the investment pools are classified as cash equivalents for purposes of these statements. For investments which are held separately from the pools, those which are highly liquid (including restricted assets) with an original maturity of 90 days or less are considered to be cash equivalents, except for investments held with paying agents. The amounts reported as cash and cash equivalents consist of cash in demand deposits; amounts placed with the State Board of Administration (SBA) in Florida PRIME, and amounts placed in Wells

Fargo Government Money Market Fund, Florida Public Assets for Liquidity Management (FL PALM) and the Florida Fixed Income Trust (FL FIT).

Cash deposits are held by banks qualified as public depositories under Florida law. All deposits are insured by the Federal Depositary Insurance Corporation and collateralized with securities held in Florida's multiple financial institution collateral pool as required by Chapter 280, Florida Statutes. The statement of cash flows considers cash and cash equivalents as those accounts used as demand deposit accounts and all highly liquid investments with an original maturity of 90 days or less.

Investments consist of amounts placed in the SBA debt service accounts for investment of debt service moneys, with SBA for participation in the Florida PRIME investment pool created by Sections 218.405, Florida Statutes, and those made locally. The investment pool operates under investment guidelines established by Section 215.47, Florida Statutes.

The District's investments in Florida PRIME and the Florida Education Investment Trust Fund (FEITF), which the SBA and the FEITF indicate are Securities and Exchange Commission Rule 2a7-like external investment pools, as of June 30, 2019, and operate as a qualifying external investment pool.

Investments held locally consist of money market mutual funds, commercial paper, corporate notes, United States Treasury notes and strips, and obligations of United States are reported at fair value. The District categorizes its fair value measurements within the fair value hierarchy established in accordance with generally accepted accounting principles. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are other observable inputs; Level 3 inputs are significant unobservable inputs. Types and amounts of investments held by the District at June 30, 2019 are further described in Note 3.

➤ **Inventories and Prepaid Items**

Inventories consist of expendable supplies held for consumption in the course of District operations. Inventories are stated at cost on a weighted average basis, except that United States Department of Agriculture donated foods are stated at their acquisition value as determined at the time of donation to the District's food service program by the Florida Department of Agriculture and Consumer Services, Bureau of Food Distribution. The costs of inventories are recorded as expenditures at the time individual inventory items are requisitioned for consumption.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements. The purchase method is used to account for prepaid items.

➤ **Capital Assets**

Expenditures for capital assets acquired or constructed for general District purposes are reported in the governmental fund that financed the acquisition or construction. The capital assets so acquired are reported in the government-wide statement of net position but are not reported in the governmental fund financial statements. Capital assets are defined by the District as those costing more than \$1,000. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed.

Donated assets are recorded at acquisition value at the date of donation. Capital assets shall be depreciated over their estimated useful lives unless they are inexhaustible (i.e. land and land improvements) or construction in progress. Land improvements consist of betterments, site preparation and site improvements that ready land for its intended use. Land improvements are characterized as having an unlimited life and are therefore not depreciated.

The costs of normal maintenance and repairs that does not add to the value of the asset or materially extends the assets lives are not capitalized. Interest costs incurred during construction of capital assets are not considered material and are not capitalized as part of the cost of construction.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

<u>Description</u>	<u>Estimated Lives</u>
Improvements Other than Buildings	5-40 years
Buildings and Fixed Equipment	10-50 years
Furniture, Fixtures and Equipment and Audio Visual Materials	3-15 years
Motor Vehicles	5-10 years
Equipment Under Capital Leases	4-6 years
Computer Software	5-10 years

Changes in capital assets for the current year are further described in Note 5.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

➤ **Deferred Outflows/Inflows of Resources**

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate section, *Deferred Outflows of Resources*, represents a consumption of net position that applies to a future period and so will not be recognized as an expense until then. The District has three types of items that meet this criterion - those related to the loss on refunding which is the difference between reacquisition price and net carrying amount of old debt, those related to pension plans which are further discussed in Note 18, State Retirement Programs and those related to OPEB as further discussed in Note 20.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate section *Deferred Inflows of Resources*, represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time. The District has two types of items that meet this criterion - those related to pension plans which are further discussed in Note 18, State Retirement Programs and those related to OPEB as further discussed in Note 20.

➤ **Compensated Absences**

Vacation benefits are accrued as a liability as the benefits are earned if the employee's right to receive compensation is attributable to services already rendered and it is probable that the District will compensate the employees for the benefits through paid time off or some other means. Sick leave benefits are accrued as a liability using the vesting method.

The liability is based on the sick leave accumulated at June 30th by those employees who are currently eligible to receive termination payments and those employees for whom it is probable that they will become eligible to receive termination benefits in the future. The criteria for determining the vacation and sick leave liability is derived from Board policy, negotiated agreements, and State law.

The entire compensated absence liability is reported on the government-wide financial statements. For governmental fund financial statements, only the amount payable to employees who terminated their employment as of the end of the fiscal year is reported. The liability at year-end includes salary related payments such as Social Security, Medicare and FRS contributions.

Changes in compensated absences liability for the current year are further described in Note 11.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

➤ **Long-Term Debt**

Long-term debt obligations that will be financed from resources to be received in the future by governmental funds are reported as liabilities in the government-wide statement of net position. Bond and certificates of participation premiums are deferred and amortized over the life of the bonds and certificates of participation using the effective interest method. Bonds and certificates of participation payable are reported net of the applicable premium.

In the governmental fund financial statements, bonds and other long-term obligations are not recognized as liabilities until due. Governmental fund types recognize bond and certificates of participation premiums, as well as bond and certificates of participation issuance costs, during the current period. The face amount of debt issued is reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Changes in long-term debt obligations for the current year are further described in Note 11.

➤ **Pensions**

In the government-wide statement of net position, liabilities are recognized for the District's proportionate share of each pension plan's net pension liability. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the FRS defined benefit plan and the HIS defined benefit plan and additions to/deductions from the FRS and the HIS fiduciary net position have been determined on the same basis as they are reported by the FRS and the HIS plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with benefit terms. Investments are reported at fair value. The District's retirement plans and related amounts are further described in Note 18.

➤ **State Revenue Sources**

Significant revenues from State sources for current operations include the Florida Education Finance Program administered by the Florida Department of Education (Department) under the provisions of Section 1011.62, Florida Statutes.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

In accordance with this law, the District determines and reports the number of full-time equivalent (FTE) students and related data to the Department. The Department performs certain edit checks on the reported number of FTE and related data, and calculates the allocation of funds to the District. The District is permitted to amend its original reporting during specified time periods following the date of original reporting. Such amendments may impact funding allocations for subsequent years. The Department may also adjust subsequent fiscal period allocations based upon an audit of the District's compliance in determining and reporting FTE and related data. Normally, such adjustments are treated as reductions or additions of revenue in the year when the adjustments are made.

The State provides financial assistance to administer certain educational programs. State Board of Education (SBE) rules require that revenue earmarked for certain programs be expended only for the program for which the money is provided, and require that the money not expended as of the close of the fiscal year be carried forward into the following year to be expended for the same educational programs. The Department generally requires that these educational program revenues be accounted for in the General Fund. A portion of the fund balance of the General Fund is restricted in the governmental funds financial statements for the unspent balance of categorical and earmarked educational program resources.

The State allocates gross receipts taxes, generally known as Public Education Capital Outlay money, to the District on an annual basis. The District is authorized to expend these funds only upon applying for and receiving an encumbrance authorization from the Department. Accordingly, the District recognizes the allocation of Public Education Capital Outlay funds as advanced revenue until such time as an encumbrance authorization is received.

A schedule of revenue from State sources for the 2018-19 fiscal year is further described in Note 16.

➤ **District Property Taxes**

The Board is authorized by State law to levy property taxes for district school operations, capital improvements, and debt service.

Property taxes consist of ad valorem taxes on real and personal property within the District. Property values are determined by the Sarasota County Property Appraiser, and property taxes are collected by the Sarasota County Tax Collector.

The Board adopted the 2018 tax levy on September 11, 2018. Tax bills are mailed in October and taxes are payable between November 1 of the year assessed and March 31 of the following year at discounts of up to 4 percent for early payment.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Taxes become a lien on the property on January 1, and are delinquent on April 1, of the year following the year of assessment. State law provides for enforcement of collection of personal property taxes by seizure of the property to satisfy unpaid taxes, and for enforcement of collection of real property taxes by the sale of interest bearing tax certificates to satisfy unpaid taxes. The procedures result in the collection of essentially all taxes prior to June 30 of the year following the year of assessment.

Property tax revenues are recognized in the government-wide financial statements when the Board adopts the tax levy. Property tax revenues are recognized in the governmental fund financial statements when taxes are received by the District, except that revenue is accrued for taxes collected by the Sarasota County Tax Collector at fiscal year-end but not yet remitted to the District.

Millage rates and taxes levied for the current year are further described in Note 17.

➤ **School Capital Outlay Surtax (Local Sales Tax)**

The citizens of Sarasota County on November 4, 1997, approved a one-cent sales tax authorized under Section 212.055(6), Florida Statutes. The Board receives one-fourth of the one-cent sales tax. The surtax levy commenced on September 1, 1999, and remained in effect for a period of 10 years through 2009. The voters of Sarasota County approved the continuation of this tax effective September 1, 2009, which remains in effect for a period of 15 years through 2024.

➤ **Federal Revenue Sources**

The District receives Federal awards for the enhancement of various educational programs. Federal awards are generally received based on applications submitted to, and approved by, various granting agencies. For Federal awards in which a claim to these grant proceeds is based on incurring eligible expenditures, revenue is recognized to the extent that eligible expenditures have been incurred.

2. BUDGETARY COMPLIANCE AND ACCOUNTABILITY

The Board follows procedures established by State statutes and SBE rules in establishing budget balances for governmental funds as described below:

- Budgets are prepared, public hearings are held, and original budgets are adopted annually for all governmental fund types in accordance with procedures and time intervals prescribed by law and SBE rules.
- Appropriations are controlled at the function level within each fund (e.g., instruction, student support services, and school administration) and may be amended by resolution at any Board meeting prior to the due date for the annual financial report.
- Budgets are prepared using the same modified accrual basis as is used to account for governmental funds.
- Budgetary information is integrated into the accounting system and, to facilitate budget control, budget balances are encumbered when purchase orders are issued.
- Appropriations lapse at fiscal year-end and encumbrances outstanding are honored from the subsequent year's appropriations.
- The reported budgetary data consists of the original budget as well as the final appropriated budget after amendments approved by the Board.

3. INVESTMENTS

- The District's investment policy authorizes the following investments:
 - Savings accounts
 - Certificates of deposits
 - Intergovernmental investment pools
 - Money market mutual funds
 - State and/or local government taxable and/or tax-exempt debt
 - Securities of the United States Government including obligations of the United States Treasury
 - United States Government agencies
 - Federal Instrumentalities
 - Mortgage-Backed Securities
 - Repurchase agreements
 - Commercial paper
 - Corporate notes
 - Bankers' acceptances

- Investments are reported at fair value other than those using the Net Asset Value ("NAV") or amortized cost. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value determinations, other than those measured using the "NAV" as a practical expedient, are made based upon a hierarchy that prioritizes the inputs to valuation techniques. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).
 - Level 1 - Inputs are unadjusted quoted prices for identical assets or liabilities in active markets that the District has the ability to access.
 - Level 2 - Inputs include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
 - Level 3 - Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability, and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

SCHOOL BOARD OF SARASOTA COUNTY, FLORIDA
Notes to the Basic Financial Statements (continued)

3. INVESTMENTS (continued)

- “NAV” - Investments in Florida Education Investment Trust Fund represent \$15,210,129 in pooled investment programs (the “Program”). No specific investments are assigned to the District, rather the value of the District’s investment is equal to the total fund net asset value times the District’s units as a percentage of total units outstanding.

Any dividends or interest of the Program are reinvested. In addition, the District may withdraw either a portion of or its entire investment at any time in the Program. The District investment in The Wells Fargo Government Money Market Fund may not be withdrawn. There were no unfunded commitments related to the Program as of June 30, 2019.

- Amortized Cost - Florida PRIME is a 2a7-like pool, which is not registered with the SEC as an investment company, but nevertheless has a policy that it will, and does, operate as a qualifying external investment pool. Thus, this pool operates essentially as a money market fund. Florida PRIME has a Standard & Poor’s rating of AAAm at June 30, 2019, and is recorded at amortized cost.

The asset’s or liability’s fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. While the District believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date.

➤ **Interest Rate Risk**

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Section 218.415, Florida Statutes, limits investment maturities to provide sufficient liquidity to pay obligations as they come due. The District has a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses from increasing interest rates. See table under concentration of credit risk for further detail on investment maturities.

Florida PRIME had weighted average days to maturity (WAM) of 29 days, FL PALM had a WAM of 52 days and FL FIT had a WAM of 113 days at

June 30, 2019. A *portfolio's* WAM reflects the average maturity in days based on final maturity or reset date, in the case of floating rate instruments. WAM measures the sensitivity of the portfolio to interest rate changes.

➤ **Credit Risk**

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Section 218.415(17), Florida Statutes, limits investments in money market funds to Securities and Exchange Commission registered money market funds with the highest credit quality rating from a nationally recognized rating agency; Florida PRIME or any intergovernmental investment pool authorized pursuant to the Florida Interlocal Cooperation Act as provided in Section 163.01, Florida Statutes; and investments in interest-bearing time deposits to qualified public depositories, as defined in Section 280.02, Florida Statutes; and direct obligations of the United States Treasury.

The District's investments in the SBA Debt Service Accounts are to provide for debt service payments on bond debt issued by the SBE for the benefit of the District. The District relies on policies developed by SBA for managing interest rate risk and credit risk on this account. Disclosures for the Debt Service Accounts are included in the notes to financial statements of the State's Comprehensive Annual Financial Report.

As of June 30, 2019, the District's investments in the Florida PRIME, the Wells Fargo Government Money Market Fund, and the Florida Education Investment Trust Fund were rated AAAM by Standard & Poor's.

Obligations of United States Agencies and Instrumentalities totaling \$6,458,541 and United States Treasury Notes totaling \$40,263,332 were rated AA+ by Standard & Poor's.

Corporate notes ratings ranged from AAA to BBB+ by Standard & Poor's.

The District's investment in Obligations of United States Agencies and Instrumentalities – FHLB Discount Note totaling \$1,198,131 is authorized under a forward delivery agreement with the Qualified Zone Academy Bonds paying agent. The forward delivery agreement authorizes the investment of the sinking fund amounts in certain eligible securities, including, without limitation, the Federal National Mortgage Association (FNMA), Federal Home Loan Mortgage Corporation and Federal Farm Credit Banks. The eligible securities must have a maturity date that is on or before November 16, 2021. The FL Fixed Income Trust (FL FIT) were rated AAAf/S1 by Standards & Poor's.

3. INVESTMENTS (continued)

The District's investment in United States Treasury Strips authorized under the supplemental trust agreement for the 2010A Qualified School Construction Bonds. The agreement authorizes the investment of the sinking fund amounts in certain eligible securities, including, without limitation, U.S. Treasury Strips and Notes and the Federal National Mortgage Association (FNMA), Federal Home Loan Mortgage Corporation and Farm Credit Banks. The eligible securities must have a maturity date that is on or before June 15, 2027. Disclosure of credit risk is not required for the District's investment in a United States Treasury Strip.

➤ **Custodial Credit Risk**

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, the District will not be able to recover the value of investment or collateral securities that are in the possession of an outside party.

Section 218.415(18), Florida Statutes, requires the District to earmark all investments and 1) if registered with the issuer or its agents, the investment must be immediately placed for safekeeping in a location that protects the governing body's interest in the security; 2) if in book entry form, the investment must be held for the credit of the governing body by a depository chartered by the Federal Government, the State of Florida (State), or any other state or territory of the United States which has a branch or principal place of business in this State, or by a national association organized and existing under the laws of the United States which is authorized to accept and execute trusts and which is doing business in this State, and must be kept by the depository in an account separate and apart from the assets of the financial institution; or 3) if physically issued to the holder but not registered with the issuer or its agents, must be immediately placed for safekeeping in a secured vault. The District's investment policy addresses custodial credit risk in that all securities, with the exception of certificates of deposit, are held with a third-party custodian; and all securities purchased by and all collateral obtained by the District should be properly designated as an asset of the District. The securities must be held in an account separate and apart from the assets of the financial institution.

The District's \$1,198,131 investment in a FHLB discount note and the District's \$23,608,453 investment in the U.S. Treasury Strip were held in a custody account by the paying agent.

➤ **Concentration of Credit Risk**

Concentration of credit risk is the risk of loss attributed to the magnitude of the District's investment in a single issuer. The District has a formal policy that limits the amount the District may invest in any one issuer.

8. CERTIFICATES OF PARTICIPATION PAYABLE

The District entered into a financing arrangement on March 25, 2009. This arrangement was characterized as a lease-purchase agreement, with the Corporation whereby the District secured financing of various educational facilities in the amount of \$75,625,000. The financing was accomplished through the issuance of Certificates of Participation, Series 2009, to be repaid from the proceeds of rents paid by the District.

The District also entered into a financing arrangement on September 1, 2010. This arrangement was characterized as a lease-purchase agreement in the form of Qualified School Construction Bonds, with the Corporation whereby the District secured financing of various education facilities and equipment in the amount of \$43,026,000. The Qualified School Construction Bond financing was accomplished through the issuance of Certificates of Participation, Series 2010A, to be repaid from the proceeds of rents paid by the District.

8. CERTIFICATES OF PARTICIPATION PAYABLE (continued)

Qualified School Construction Bonds provide for a refundable credit from the United States Department of Treasury in accordance with Section 6431(f) of the Internal Revenue Code of 1986, as amended, equal to the lesser of the amount of interest payable with respect to the Certificates on such date or the amount of interest which would have been payable with respect to the Certificates on such date if such interest were determined at the tax credit rate otherwise applicable to such Certificates in accordance with the Code. The tax credit rate set by the Department on August 30, 2010 was 4.85 percent. This interest rate credit will be paid to the District with respect to the Certificates (the "Subsidy Payment").

Lease principal payments in the amount of \$1,924,437 are required to be deposited by the District into a sinking fund on an annual basis, and interest at the rate of 4.94 percent is paid semiannually. Sinking fund proceeds are invested and accumulate over the life of the issue, ending in a lump sum repayment to the leaseholders at maturity. The annual principal lease payment is adjusted as required based upon final investment earnings.

The District also entered into a financing arrangement on September 16, 2010. This arrangement was characterized as a lease-purchase agreement, with the Corporation whereby the District secured financing of various education facilities in the amount of \$70,070,000. The financing was accomplished through the issuance of Certificates of Participation, Series 2010B, to be repaid from the proceeds of rents paid by the District.

On April 28, 2016 the District entered into a financing arrangement (School Board of Sarasota County, Florida - Certificates of Participation, Series 2016), whereby the District advanced refunded the callable portions of the Series 2009 and Series 2010-B Certificates of Participation in the amount of \$68,365,000. The proceeds from the Series 2016 issue have been placed in escrow to pay the lease payments on the refunded certificates until the call dates of July 1, 2019 for the Series 2009 and July 1, 2020 for the Series 2010-B. The District was able to achieve \$3,857,154 of net present value debt service savings or 6.46% of the refunded par amount. This equates to approximately \$450,000 of annual savings through July 1, 2024 and \$183,000 on July 1, 2025. The lease payments for the Series 2016 issue are payable by the District semiannually on June 15 and December 15 at a fixed interest rate of 1.74%.

The District entered into a purchase contract dated November 1, 2005, under the Qualified Zone Academy Bonds (QZAB) Program. The QZAB program provides no interest cost financing to purchase certain goods or services for schools located in eligible District areas (zones). The District received financing of \$1,299,696 from a local bank on November 16, 2005. Interest on the debt is paid by the United States Government through the issuance of Federal income tax credits to the holder of the QZAB debt (the bank). The rate of return to the bank was established by the United States Government at the time of the sale.

Repayment of the original \$1,299,696 financing proceeds is due in full on November 16, 2021. In connection with the financing, the District entered into a forward delivery agreement dated November 16, 2005, requiring a single deposit of \$726,519 into a sinking fund. The forward delivery agreement provides for a guaranteed investment return of 3.67 percent per annum whereby the required deposit, along with accrued interest, will be sufficient to repay the debt at maturity. The invested assets accumulated pursuant to the forward delivery agreement are held under a custodial agreement until the debt matures. There is \$1,198,131 in this sinking fund at June 30, 2019.

10. DEFEASED DEBT

In prior years, the Board defeased in substance certain outstanding bonds by placing a portion of the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old debt. Accordingly, the trust account assets and the liability for the in-substance defeased bonds are not included in the District's financial statements. As of June 30, 2019, the District does not have any debt considered defeased in substance.

13. FUND BALANCE REPORTING

There are two major types of fund balances, nonspendable and spendable. Nonspendable fund balances are balances that cannot be spent because they are not expected to be converted to cash or they are legally or contractually required to remain intact. Examples of this classification are prepaid items, inventories, and principal (corpus) of an endowment fund. The District does not have any nonspendable funds related to endowments. The District has inventories totaling \$1,067,430 and prepaid items totaling \$10,192,926 that are considered nonspendable.

Spendable fund balances are classified based on a hierarchy of spending constraints. The District has classified the spendable fund balances as *Restricted, Assigned, and Unassigned* and considered each to have been spent when expenditures are incurred. The District does not report any *Committed* fund balance. When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then

SCHOOL BOARD OF SARASOTA COUNTY, FLORIDA

13. FUND BALANCE REPORTING (continued)

unrestricted resources as they are needed. When committed, assigned, or unassigned resources are available for use in governmental fund financial statements, it is the District's policy to use committed resources first, followed by assigned resources, and then unassigned resources as they are needed.

- Restricted: The portion of fund balance on which constraints have been placed by creditors, grantors, contributors, laws or regulations of other governments, constitutional provisions, or enabling legislation. Restricted fund balance places the most binding level of constraint on the use of fund balance. The District classifies most of its fund balances other than General Fund as restricted, as well as unspent State categorical and earmarked education funding that are legally or otherwise restricted. The District's restricted fund balance total is \$123,349,606 and represents \$6,575,939 for categorical programs; \$58,335 for grants; \$1,543,103 for food service; \$24,883,506 for debt service; and \$90,288,723 for capital projects.
- Committed: The portion of fund balance that can only be used for specific purposes pursuant to constraints imposed by formal action of the highest level of decision-making authority (i.e., resolution that is approved by a majority vote of the Board at a public meeting).

These amounts cannot be used for any other purpose unless the Board removes or changes the specified use by taking the same action it employed to previously commit the amounts. The District does not report any committed fund balance.

- Assigned: The portion of fund balance that is intended to be used for specific purposes, but is neither restricted nor committed. Assigned amounts include those that have been set aside for a specific purpose by an authorized government body or official, but the constraint imposed does not satisfy the criteria to be classified as restricted or committed. This category includes any remaining positive amounts, for governmental funds other than the General Fund, not classified as nonspendable, restricted, or committed. The District also classifies amounts as assigned that are constrained to be used for a specific purpose based on actions of the Superintendent and the Chief Financial Officer as authorized by Board Policy 7.101 and not included in other categories. The District's assigned fund balance total is \$5,412,978 and represents \$4,323,082 in district projects and \$1,089,896 school operating budget carryforwards.
- Unassigned: The portion of fund balance that is the residual classification for the General Fund. The General Fund is the only fund that reports a positive unassigned fund balance. This balance represents amounts that have not been assigned to other funds and that have not been restricted, committed, or assigned for specific purposes. The unassigned fund balance in the General Fund is \$58,871,103.

13. FUND BALANCE REPORTING (continued)

18. STATE RETIREMENT PROGRAMS

Florida Retirement System- Defined Benefit Pension Plans. The FRS was created in Chapter 121, Florida Statutes, to provide a defined benefit pension plan for participating public employees. The FRS was amended in 1998 to add the Deferred Retirement Option Program (DROP) under the defined benefit plan and amended in 2000 to provide a defined contribution plan alternative to the defined benefit plan for FRS members effective July 1, 2002. This integrated defined contribution pension plan is the FRS Investment Plan. Chapter 112, Florida Statutes, established the Retiree HIS Program, a cost-sharing multiple-employer defined benefit pension plan, to assist retired members of any state-administered retirement system in paying the costs of health insurance.

Essentially all regular employees of the District are eligible to enroll as members of the State-administered FRS. Provisions relating to the FRS are established by Chapters 121 and 122, Florida Statutes; Chapter 112, Part IV, Florida Statutes; Chapter 238, Florida Statutes; and FRS Rules, Chapter 60S, Florida Administrative Code, wherein eligibility, contributions, and benefits are defined and described in detail. Such provisions may be amended at any time by further action from the Florida Legislature. The FRS is a single retirement system administered by the Florida Department of Management Services, Division of Retirement, and consists of the two cost sharing, multiple employer defined benefit plans and other nonintegrated programs. A comprehensive annual financial report of the FRS, which includes its financial statements, required supplementary information, actuarial report, and other relevant information, is available from the Florida Department of Management Services Web site (www.dms.myflorida.com).

The District's FRS & HIS pension expense totaled \$33,509,562 for the fiscal year ended June 30, 2019.

FRS Pension Plan.

The FRS Pension Plan (Plan) is a cost-sharing multiple-employer defined benefit pension plan, with a Deferred Retirement Option Plan (DROP) for eligible employees. Most employees working for the District are covered by this Plan. The general classes of membership are as follows:

- Regular Class – Members of the FRS who do not qualify for membership in the other classes.
- Special Risk Class – Members in law enforcement.
- Elected County Officers Class – Members who hold specified elective offices in local government.
- Senior Management Service Class (SMSC) – Members in senior management level positions.

Employees enrolled in the Plan prior to July 1, 2011, vest at six years of creditable service and employees enrolled in the Plan on or after July 1, 2011, vest at eight years of creditable service.

18. STATE RETIREMENT PROGRAMS (continued)

All vested members, enrolled prior to July 1, 2011, are eligible for normal retirement benefits at age 62 or at any age after 30 years of service, which may include up to 4 years of credit for military service. Members who enrolled in the Plan on or after July 1, 2011 and become vested are eligible for normal retirement benefits at age 65 or at any age after 33 years of service, which may include up to 4 years of credit for military service. The Plan also includes an early retirement provision but there is a benefit reduction for each year a member retires before his or her normal retirement date. The Plan provides retirement, disability, and death benefits and annual cost-of-living adjustments to eligible participants.

The DROP Program, subject to provisions of Section 121.091, Florida Statutes permits employees eligible for normal retirement under the Plan to defer receipt of monthly benefit payments while continuing employment with an FRS participating employer. An employee may participate in DROP for a period not to exceed 60 months after electing to participate, except that certain instructional personnel may participate for up to 96 months.

During the period of DROP participation, deferred monthly benefits are held in the FRS Trust Fund and accrue interest. The net pension liability does not include amounts for DROP participants, as these members are considered retired and are not accruing additional pension benefits.

Benefits Provided. Benefits under the Plan are computed on the basis of age and/or years of service, average final compensation, and service credit. Credit for each year of service is expressed as a percentage of the average final compensation. For members initially enrolled before July 1, 2011, the average final compensation is the average of the five highest fiscal years' earnings; for members initially enrolled on or after July 1, 2011, the average final compensation is the average of the eight highest fiscal years' earnings. The total percentage value of the benefit received is determined by calculating the total value of all service, which is based on the retirement class to which the member belonged when the service credit was earned. Members are eligible for in-line-of-duty or regular disability and survivors' benefits.

18. STATE RETIREMENT PROGRAMS (continued)

The following chart shows the percentage value for each year of service credit earned:

<u>Class, Initial Enrollment, and Retirement Age/Years of Service</u>	<u>% Value</u>
<i>Regular Class members initially enrolled before July 1, 2011</i>	
Retirement up to age 62 or up to 30 years of service	1.60
Retirement at age 63 or with 31 years of service	1.63
Retirement at age 64 or with 32 years of service	1.65
Retirement at age 65 or with 33 or more years of service	1.68
<i>Regular Class members initially enrolled on or after July 1, 2011</i>	
Retirement up to age 65 or up to 33 years of service	1.60
Retirement at age 66 or with 34 years of service	1.63
Retirement at age 67 or with 35 years of service	1.65
Retirement at age 68 or with 36 or more years of service	1.68
<i>Special Risk Class</i>	
Service on and after October 1, 1974	3.00
<i>Elected County Officers</i>	
	3.00
<i>Senior Management Service Class</i>	
	2.00

As provided in Section 121.101, Florida Statutes, if the member is initially enrolled in the FRS before July 1, 2011, and all service credit was accrued before July 1, 2011, the annual cost-of-living adjustment is 3 percent per year. If the member is initially enrolled before July 1, 2011, and has service credit on or after July 1, 2011, there is an individually calculated cost-of-living adjustment. The annual cost-of-living adjustment is a proportion of 3 percent determined by dividing the sum of the pre-July 2011 service credit by the total service credit at retirement multiplied by 3 percent. Plan members initially enrolled on or after July 1, 2011, will not have a cost-of-living adjustment after retirement.

Notes: (A) Employer rates include 1.66 percent for the postemployment health insurance subsidy. Also, employer rates, other than for DROP participants, include 0.06 percent for administrative costs of the Investment Plan.

(B) Contribution rates are dependent upon retirement class in which reemployed.

The District's contributions to the Plan totaled \$17,321,614 for the fiscal year ended June 30, 2019.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. At June 30, 2019, the District reported a liability of \$167,778,194 for its proportionate share of the Plan's net pension liability. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2018. The District's proportionate share of the net pension liability was based on the District's 2017-18 fiscal year contributions relative to the 2017-18 fiscal year contributions of all participating members. At June 30, 2018, the District's proportionate share was 0.557022931 percent, which was a decrease of 0.38233321 percent from its proportionate share measured as of June 30, 2017.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

<u>Fiscal Year Ending June 30</u>	<u>Amount</u>

2021	13,059,519
2022	597,333

Total	<u><u>\$ 50,249,270</u></u>

Actuarial Assumptions. The total pension liability in the July 1, 2018 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.60 percent
Salary Increases	3.25 percent, average, including inflation
Investment rate of return	7.00 percent, net of pension plan investment expense, including inflation

Mortality rates were based on the Generational RP-2000 with Projection Scale BB.

The actuarial assumptions used in the July 1, 2018, valuation were based on the results of an actuarial experience study for the period July 1, 2008, through June 30, 2013.

The long-term expected rate of return on pension plan investments was not based on historical returns, but instead is based on a forward-looking capital market economic model. The allocation policy's description of each asset class was used to map the target allocation to the asset classes shown below. Each asset class assumption is based on a consistent set of underlying assumptions, and includes an adjustment for the inflation assumption. The target allocation and best estimates of arithmetic and geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation (1)	Annual Arithmetic Return	Compound Annual (Geometric) Return	Standard Deviation
Cash	1.0%	2.9%	2.9%	1.8%
Fixed Income	18.0%	4.4%	4.3%	4.0%
Global Equity	54.0%	7.6%	6.3%	17.0%
Real Estate	11.0%	6.6%	6.0%	11.3%
Private Equity	10.0%	10.7%	7.8%	26.5%
Strategic investments	6.0%	6.0%	5.7%	8.6%
Total	100.00%			
Assumed inflation - Mean			2.6%	1.9%

Note: (1) As outlined in the Plan's investment policy

Discount Rate. The discount rate used to measure the total pension liability was 7.00 percent. The Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the discount rate for calculating the total pension liability is equal to the long-term expected rate of return. The discount rate used in the 2018 valuation was updated from 7.1 percent to 7.0 percent.

Payables to the Pension Plan. At June 30, 2019, the District reported a payable of \$2,773,037 for the outstanding amount of contributions to the Plan required for the fiscal year ended June 30, 2019.

HIS Pension Plan

The HIS Pension Plan (HIS Plan) is a cost-sharing multiple-employer defined benefit pension plan established under Section 112.363, Florida Statutes, and may be amended by the Florida Legislature at any time. The benefit is a monthly payment to assist retirees of State-administered retirement systems in paying their health insurance costs and is administered by the Division of Retirement within the Florida Department of Management Services.

Benefits Provided. For the fiscal year ended June 30, 2019, eligible retirees and beneficiaries received a monthly HIS payment of \$5 for each year of creditable service completed at the time of retirement, with a minimum HIS payment of \$30 and a maximum HIS payment of \$150 per month, pursuant to Section 112.363, Florida Statutes. To be eligible to receive a HIS Plan benefit, a retiree under a State-administered retirement system must provide proof of health insurance coverage, which may include Medicare.

SCHOOL BOARD OF SARASOTA COUNTY, FLORIDA

18. STATE RETIREMENT PROGRAMS (continued)

Contributions. The HIS Plan is funded by required contributions from FRS participating employers as set by the Florida Legislature. Employer contributions are a percentage of gross compensation for all active FRS members. For the fiscal year ended June 30, 2019, the contribution rate was 1.66 percent of payroll pursuant to section 112.363, Florida Statutes. The District contributed 100 percent of its statutorily required contributions for the current and preceding three years. HIS Plan contributions are deposited in a separate trust fund from which payments are authorized. HIS Plan benefits are not guaranteed and are subject to annual legislative appropriation. In the event the legislative appropriation or available funds fail to provide full subsidy benefits to all participants, benefits may be reduced or canceled.

The District's contributions to the HIS Plan totaled \$4,412,472 for the fiscal year ended June 30, 2019.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. At June 30, 2019, the District reported a net pension liability of \$83,424,226 for its proportionate share of the HIS Plan's net pension liability. The current portion of the net pension liability is the District's proportionate share of benefit payments expected to be paid within one year, net of the District's proportionate share of the pensions plan's fiduciary net position available to pay that amount. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2017, and updated procedures were used to determine liabilities as of July 1, 2018.

The District's proportionate share of the net pension liability was based on the District's 2017-18 fiscal year contributions relative to the total 2017-18 fiscal year contributions of all participating members. At June 30, 2018, the District's proportionate share was 0.788202390 percent, which was a decrease of 0.047043974 percent from its proportionate share measured as of June 30, 2017.

For the fiscal year ended June 30, 2019, the District recognized pension expense of \$6,115,287 related to the HIS Plan. In addition, the District reported deferred outflows of resources related to pensions from the following sources:

<u>Description</u>	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Difference between expected and actual experience	\$ 1,277,188	\$ 141,735
Change of assumptions	9,277,805	8,820,307

Changes in proportion and differences between District HIS contributions and proportionate share of HIS contributions	9,164,166	9,058,285
District HIS contributions subsequent to the measurement date	4,412,472	-
Total	\$ 24,181,988	\$ 18,020,327

The deferred outflows of resources related to pensions, totaling \$4,412,472, resulting from District contributions to the HIS Plan subsequent to the measurement date will be recognized as a reduction of the net pension liability in the fiscal year ended June 30, 2020.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

<u>Fiscal Year Ending June 30</u>	<u>Amount</u>
2020	\$ 1,055,629
2021	1,051,384

Thereafter	(955,554)
Total	\$ 1,749,189

Actuarial Assumptions. The total pension liability in the July 1, 2018, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.60 percent
Salary Increases	3.25 percent, average, including inflation
Municipal Bond Rate	3.87 percent

18. STATE RETIREMENT PROGRAMS (continued)

Mortality rates were based on the Generational RP-2000 with Projected Scale BB.

While an experience study had not been completed for the HIS Plan, the actuarial assumptions that determined the total pension liability for the HIS Plan were based on certain results of the most recent experience study for the FRS Plan.

Discount Rate. The discount rate used to measure the total pension liability was 3.87 percent, which is an increase from 0.29 percent used at the preceding measurement date. In general, the discount rate for calculating the total pension liability is equal to the single rate equivalent to discounting at the long-term expected rate of return for benefit payments prior to the projected depletion date. Because the HIS benefit is essentially funded on a pay-as-you-go basis, the depletion date is considered to be immediate, and the single equivalent discount rate is equal to the municipal bond rate selected by the HIS Plan sponsor. The Bond Buyer General Obligation 20-Bond Municipal Bond Index was adopted as the applicable municipal bond index.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate. The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 3.87 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (2.87 percent) or 1-percentage-point higher (4.87 percent) than the current rate:

	1% Decrease (2.87%)	Current Discount Rate (3.87%)	1% Increase (4.87%)

FRS-Defined Contribution Plan. Pursuant to Section 121.4501, Florida Statutes, the Florida Legislature created a defined contribution program called the Florida Retirement System Investment Plan (Investment Plan), which is administered by the SBA. The Investment Plan is reported in the SBA's annual financial statements and in the State of Florida Comprehensive Annual Financial Report. Employees may elect to participate in the Investment Plan in lieu of the FRS defined benefit plan. Employees in the Investment Plan vest in their own contributions immediately and, after one year of service, in employer contributions and investment earnings. District employees participating in DROP are not eligible to participate in the program. This program is self-directed by the employee. The employees have the responsibility of selecting how their funds are invested within the approved set of investment choices and may take their funds when they leave the FRS. Employer and employee contributions are defined by law, but the ultimate benefit depends in part on the performance of investment funds. The Investment Plan is funded by employer and employee contributions that are based on the same salary and membership class (Regular Class, Elected County Officers, etc.) as the FRS defined benefit plan. Contributions are directed to the individual member accounts, and the individual members allocate contributions and account balances among various approved investment choices. Costs of administering the Investment Plan, including the FRS Financial Guidance Program are funded through an employer contribution of 0.06 percent of payroll and by forfeited benefits of Investment Plan members. Allocations to the investment member's accounts during the 2018-19 fiscal year were as follows:

<u>Class</u>	<u>Percent of Gross Compensation</u>
FRS, Regular	6.30
FRS, Elected County Officers	11.34

If an accumulated benefit obligation for service credit originally earned under the FRS Pension Plan is transferred to the Investment Plan, the member must have the years of service required for FRS Pension Plan vesting (including the service credit represented by the transferred funds) to be vested for these funds and the earnings on the funds. Nonvested employer contributions are placed in a suspense account for up to 5 years. If the employee returns to FRS-covered employment within the 5-year period, the employee will regain control over their account. If the employee does not return within the 5-year period, the employee will forfeit the accumulated account balance. For the fiscal year ended June 30, 2019, the information for the amount of forfeitures was unavailable from the SBA; however, management believes that these amounts, if any, would be immaterial to the District.

18. STATE RETIREMENT PROGRAMS (continued)

After termination and applying to receive benefits, the member may rollover vested funds to another qualified plan, structure a periodic payment under the Investment Plan, receive a lump-sum distribution, leave the funds invested for future distribution, or any combination of these options. Disability coverage is provided; the member may either transfer the account balance to the FRS Pension Plan when approved for disability retirement to receive guaranteed lifetime monthly benefits under the FRS Pension Plan, or remain in the Investment Plan and rely upon that account balance for retirement income.

There were 1,143 District participants in the Investment Plan during the 2018-19 fiscal year. The District's Investment Plan pension expense totaled \$3,090,343.

19. SPECIAL TERMINATION BENEFITS

On May 18, 1993, the Board approved the establishment of a one-time early retirement incentive program for members of the instructional and classified collective bargaining units and its administrative personnel who signed an agreement to participate in the program and agreed to retire from employment under the provisions of the FRS as explained in Note 18. The Early Out Program was offered only until August 15, 1993. Participating employees were required to select an option under the existing provisions of the FRS which pays over the life of the employee the maximum retirement benefit payable, forfeiting an option which would pay decreased retirement benefits for the lifetime of both the employee and a joint annuitant (Survivor). To compensate for the loss of these extended survivor benefits, the District, as part of the Early Out Program, purchased on behalf of participating employees a flexible premium universal life insurance policy to be paid for over the life of the retiree, providing death benefits upon the qualified employee's death equaling the amount the survivor would have received, including a 3 percent annual cost of living adjustment (COLA), had the qualified employee selected the FRS option which paid survivor benefits. Premiums are to be paid for over the life of the participating employee. There are currently 77 prior employees participating in the program.

20. OTHER POSTEMPLOYMENT BENEFITS

The District follows GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, for reporting the employers' OPEB Plan liability.

Plan Description. The Other Postemployment Benefits (OPEB) Plan is a single-employer defined benefit plan administered by the District. Pursuant to the provisions of Section 112.0801, Florida Statutes, former employees who retire from the District and their eligible dependents may continue to participate in one of four self insured comprehensive plans for medical and prescription drug coverage. The District subsidizes the premium rates paid by retirees by allowing them to participate in the OPEB Plan at reduced or blended group (implicitly subsidized) premium rates for both active and retired employees. These rates provide an implicit subsidy for retirees because, on an actuarial basis, their current and future claims are expected to result in higher costs to the OPEB Plan on average than those of active employees. The District does not provide any explicit subsidies for retiree coverage. Retirees are not required to enroll in the Federal Medicare programs parts A and B for their primary coverage as soon as they are eligible. A retiree may also participate in the District's life insurance program that provides \$5,000 coverage reducing to \$2,500 at age 70. The OPEB Plan does not issue a stand-alone report, and is not included in the report of a public employee retirement system or other entity. The OPEB Plan contribution requirements of the District and OPEB Plan members are established and may be amended through recommendations of the Insurance Committee and action from the Board. The District has not advance-funded or established a funding methodology for the annual OPEB expense or the net OPEB Plan liability, and the OPEB Plan is financed on a pay-as-you-go basis. No assets are accumulated in a trust that meets all of the criteria in GASB Statement No. 75, paragraph 4. A copy of the actuarial report provided by AON dated August 12, 2019 is available in the District's Finance Department.

Benefits Provided. The OPEB Plan provides healthcare and life insurance benefits for retirees and their dependents. The OPEB Plan only provides an implicit subsidy as described above. The plan also provides all retirees with life insurance benefits as described above.

Employees Covered by Benefit Terms. The following table provides a summary of the number of participants in the plan as of the measurement date:

	<u>Healthcare</u>	<u>Life Insurance</u>
Inactive Plan Members	470	2,351
Active Plan Members	<u>4,737</u>	<u>4,737</u>

20. OTHER POSTEMPLOYMENT BENEFITS (continued)

Total OPEB Liability. The District's total OPEB liability of \$35,627,469 was measured as of June 30, 2018, and was determined by an actuarial valuation as of July 1, 2018.

Changes in the Total OPEB Plan Liability. The following table shows the change in the District's OPEB Plan liability.

Service Cost	\$ 1,025,702
Interest on the Total OPEB Plan Liability	903,290
Differences Between Expected and Actual Experience	(1,061,580)
Changes of Assumptions	11,423,588
Benefit Payments	(1,723,605)
Net Change in Total OPEB Plan Liability	10,567,395
Total OPEB Liability at 6/30/2018, as restated	25,060,074
Total OPEB Liability at 6/30/19 (A)	\$ 35,627,469

(A) Total OPEB liability contains \$23,099,658 of liability associated with medical coverage for retirees aged 65 and above. Effective 1/1/20, the plan will not provide this coverage

Actuarial Valuation Date. For employee and retiree population purposes, June 30, 2018, was the most recent actuarial valuation date. For development of per capita cost purposes and for valuation purposes, July 1, 2018, was used as the effective date of OPEB Plan provisions.

Actuarial Valuation Methods and Assumptions. Actuarial valuations of an ongoing OPEB Plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment and termination, mortality, and the healthcare cost trends. Amounts determined regarding the funded status of the OPEB Plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

20. OTHER POSTEMPLOYMENT BENEFITS (continued)

The total OPEB liability actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.50 percent
Salary Increases	4.50 percent
Discount Rate	3.87 percent
Healthcare Cost Trend Rates	Pre-65 trend starts at 7.7 percent and age 65+ trend starts at 8.04 percent for fiscal year 2019 both gradually decreasing to an ultimate trend of 4.5 percent in fiscal year 2028.
Benefit-related costs	Retiree medical premiums assumed to grow at the same trend as pre-65 claims.

The Pub-2010 headcount weighted mortality tables for teachers, projected generationally from 2010 with Scale MP-2018, were used for the healthy population. The Pub-2010 headcount weighted mortality tables for disabled non-public safety employees, projected generationally from 2010 with Scale MP-2018, were used for the disabled population. These tables represent recent mortality experience of public retirement plans in the United States and were published by the Society of Actuaries' Retirement Plans Experience Committee (RPEC) in 2019.

Discount Rate. There are no invested plan assets held in trust to finance the OPEB Plan liability. The discount rate used equals the tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA rating as of the measurement date. For the purpose of the OPEB Plan valuation, the municipal bond rate was 3.87 percent (based on the daily rate closest to but not later than the measurement date of the "Bond Buyer GO 20-Bond Municipal Bond Index"). The discount rate was 3.58 percent as of the beginning of the measurement period.

21. RISK MANAGEMENT PROGRAMS

The District has established a cafeteria plan under Section 125 of the Internal Revenue Code whereby the District will purchase various insurance products for the employee. In addition, an employee may purchase additional insurance, which qualifies for salary reduction under Internal Revenue Service guidelines. The cafeteria plan is accounted for as an Internal Service Fund.

The District is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. Workers' compensation, automobile liability, and general liability coverage, certain dental benefits and medical benefits contained within the District's cafeteria plan, are being provided on a self-insured basis up to specified limits.

The District has contracted with an insurance administrator to administer the workers' compensation, medical benefit and dental benefit self-insurance programs, including the processing, investigation, and payment of claims. The District has entered into an insurance agreement for their medical benefit program to provide stop loss coverage on specific medical and prescription drug claims in excess of \$650,000 with unlimited specific annual or lifetime maximum eligible expenses per covered person including retirees. The District has entered into an insurance agreement for their workers' compensation plan to provide specific excess coverage of claim amounts above the stated amount on an individual claim basis and aggregate excess coverage up to \$25 million.

21. RISK MANAGEMENT PROGRAMS (continued)

For automobile and general liability coverage the District depends on the Florida Sovereign Immunity Act, Section 768.28, Florida Statutes, to limit its potential tort liability to \$200,000 per person or \$300,000 per occurrence.

Property protection, employee blanket crime policy and fidelity bond, and other coverages deemed necessary by the Board are provided through purchased commercial insurance. Settled claims resulting from the risks described above have not exceeded commercial insurance coverage in any of the past three fiscal years.

A liability in the amount of \$12,189,908 for the workers' compensation, the general liability, the automobile liability, the dental liability, and the health insurance funds was actuarially determined to cover estimated incurred but not reported insurance claims payable at June 30, 2019 and is net of excess insurance recoverable on unpaid claims. A liability in the amount of \$157,589 relates to the District's cafeteria plan fund. Non-incremental claims expense has been included as part of the liabilities.

The following schedule represents the changes in claims liability for the past three fiscal years for the District's self-insurance program:

Fiscal Year	Beginning of Fiscal Year Liability	Claims and Changes in Estimates	Claims Payments	Balance at Fiscal Year End
2016-2017	\$ 12,277,077	\$ 46,884,577	\$ (46,590,482)	\$ 12,571,172
2017-2018	12,571,172	48,759,217	(48,979,152)	12,351,237
2018-2019	12,351,237	55,238,590	(55,242,330)	12,347,497

22. LITIGATION

The District is contingently liable with respect to lawsuits and other claims that arise in the ordinary course of its operations. Management believes that any liability arising from such claims would be immaterial to the financial statements.

23. CONTINGENCY

The District receives grant funds from the Federal government. Certain expenditures of these funds are subject to audit by the grantor, and the reporting entity is contingently liable to refund amounts received in excess of allowable expenditures. In the opinion of the management of the District, no material refunds will be required as a result of expenditures disallowed by the grantors.
