Meeting called to order at 10am. Millie Wheeler welcomed everyone and shared with all the Teams platform where the documents will live. Sarasota Suncoast Academy and Suncoast School for Innovative Studies have both submitted their renewal applications. A digital copy is on Teams and we have hard copies if any of the team would like one.

Millie has placed a chart of which departments are working on each session under the school channel under "Posts". Millie explained that the team will be providing their comments on the checklist. The Charter team will summarize the information on the checklist and write the information in the CRC Renewal Review to be given to the school for a response.
