- I. The District shall implement behavioral management interventions for disruptive students to prevent and reduce significant disruptive behavior and to provide for the physical safety and security of students and staff when students pose a threat to themselves and/or others. The focus shall be on the use of the least restrictive but effective intervention(s) for each student.

- B. Physical intervention should only be used in an emergency situation when an immediate and significant threat to the student or others exists.
- C. Physical intervention may only be implemented by trained, qualified school personnel. Except in the case where a student has presented themselves in a position of imminent risk of death or serious bodily injury.

- V. Documentation and Reporting
