

## Need Community Service Hours?

*Here are the steps to start getting community service hours through the Service Delta app:*

1. Scan the QR Code above to download the Service Delta app.
2. Click on the “Community Service” icon on the home page and find a list of volunteer opportunities and nonprofits to contact.
3. Find a nonprofit you like and reach out to see if you can start volunteering!
4. Contact Rotary Futures or follow the instructions on the Service Delta app to get the community service activity approved.
5. Once approved, start volunteering! Don’t forget to log your hours!

---

## Benefits of the Service Delta App:

- Community service hours help students achieve the Florida Bright Futures Scholarship and other scholarships.
- Some clubs and honor societies at VHS require community service hours to join.
- More community service hours look great on a job and college application resume.
- Students can find a cause to serve in the community.
- Parents can stay informed with high school activities and help their children stay involved!

## **About**

Service Delta is a nonprofit and mobile app founded in 2020 by four students: Katie Nguyen, Kathrin Didovich, Thomas Danz, and Jack Wardlaw and two community leaders: Jim Foubister and Raj Doraisamy. All information on the app is loaded by students and on the app you can find community service opportunities, city and school calendars, crisis call and text lines, and more!

## **Community Service Opportunities**

On the home screen of the app, you will find a section titled “Community Service.” Click on this section to find approximately 50 nonprofits and their contact information. These nonprofits have been approved by Rotary Futures and working with them will count as high school community service hours. Additionally, if there are any one-time events students can volunteer at, they will be added to this section of the app. In this section, there is information about getting community service hours approved and logged through Rotary Futures.

## **Business Partnership**

Service Delta is all about helping out local businesses. If you would like to partner with us and offer app users a deal at your business, we will send out notifications to app users to visit your business! Also, we will put a page of information about your business under the “Community Partners” section of the app. Please reach out through our website or email below.
