## Year at a

## Glance

## Algebra 2 Regular \& Honors

Course Number 1200330/1200340

## Course Description:

In Algebra 2 Honors, instructional time will emphasize six areas: (1) developing understanding of the complex number system, including complex numbers as roots of polynomial equations; (2) extending arithmetic operations with algebraic expressions to include polynomial division, radical and rational expressions; (3) graphing and analyzing functions including polynomials, absolute value, radical, rational, exponential and logarithmic; (4) extending systems of equations and inequalities to include non-linear expressions; (5)building functions using compositions, inverses and transformations and (6) developing understanding of probability concepts.

## Textbook Publisher:

Florida Reveal Algebra 2 Honors, McGraw Hill (Students have online access through
My.Sarasotacountyschols.net)

## Standards:

Available on CPalms: Regular \& Honors
Available on Florida Department of Education: Regular \& Honors

| $\begin{aligned} & \text { 궁 } \\ & \frac{1}{0} \\ & \frac{1}{6} \\ & \frac{1}{\sigma} \\ & \hline \end{aligned}$ | Unit 1: Linear Equations, Inequities and Systems | 2-1 Solving Absolute Value Equations and Inequalities <br> 2-2 Linear Functions (example 5\&6 Honors only) <br> 2-3 Solving Systems of Equations Graphically <br> 2-4 Solving Systems of Equations Algebraically <br> 2-5 Solving Systems of Inequalities <br> 2-6 Solving Systems of Equations in Three Variables |
| :---: | :---: | :---: |
|  | Unit 2: Quadratic Functions | 3-1 Graphing Quadratic Functions <br> 3-2 Solving Quadratic Equations by graphing <br> 3-3 Complex Numbers <br> 3-4 Solving Quadratic Equations by factoring <br> 3-5 Solving Quadratic Equations by completing the square <br> 3-6 Using the Quadratic Formula and the discriminant <br> 3-7 Quadratic Inequalities <br> 3-8 Solving Linear-Nonlinear Systems |
| $\begin{aligned} & N \\ & \frac{1}{4} \\ & \frac{4}{0} \\ & \frac{0}{0} \end{aligned}$ | Unit 3: Properties of Functions | 1-1 Functions and Continuity <br> 1-2 Linearity, Intercepts, and Symmetry <br> 1-3 Extrema and End Behavior <br> 1-4 Sketching Graphs and Comparing Functions <br> 1-5A Honors: Piecewise Functions <br> 1-5 Absolute Value <br> 1-6 Transformations of Functions |
|  | Unit 4: Inverse and Radical Functions | 6-1 Operations on Functions <br> 6-2 Inverse Relations and Functions <br> 6-3 nth Roots and Rational Exponents <br> 6-4 Graphing Radical Functions <br> 6-5 Operations with Radical Expressions <br> 6-6 Solving Radical Equations |
| $\begin{aligned} & m \\ & \frac{1}{ \pm} \\ & \frac{1}{2} \\ & \frac{1}{2} \\ & 0 \end{aligned}$ | Unit 5: Exponential Functions | 7-1 Graphing Exponential Functions <br> 7-2 Solving Exponential Equations <br> 7-3 Special Exponential Functions <br> 7-4 Honors: Geometric Sequences <br> 7-5 Modeling Data |
|  | Unit 6: Logarithmic Functions | 8-1 Logarithms and Logarithmic Functions <br> 8-2 Properties of Logarithms <br> 8-3 Common Logarithms <br> 8-4 Natural Logarithms <br> 8-5 Using Exponential and Logarithmic Functions <br> 8-6 Simple, Compound, and Continuously Compounded Interest |
|  | Unit 7: Polynomials and Polynomial Functions | 4-1 Polynomial Functions <br> 4-2 Analyzing Graphs of Polynomial Functions <br> 4-3 Operations with Polynomials <br> 4-4 Dividing Polynomials <br> 4-5 Honors: Powers of Binomials |

| $\pm$$\vdots$$\frac{1}{2}$$\frac{1}{0}$0 | Unit 8: Polynomial Educations | 5-1 Solving Polynomial Equations by Graphing <br> 5-2 Solving Polynomial Equations Algebraically <br> 5-3 Proving Polynomial Identities <br> 5-4A Honors: The Remainder Theorem <br> 5-4 The Factor and Rational Zeros Theorems <br> 5-5 Roots and Zeros |
| :---: | :---: | :---: |
|  | Unit 9: Rational Functions | 9-1 Multiplying and Dividing Rational Expressions <br> 9-2 Adding and Subtracting Rational Expressions <br> 9-3 Graphing Reciprocal Functions <br> 9-4 Graphing Rational Functions <br> 9-6 Solving Rational Equations |
|  | Module 10: Probability (Honors Only) | 10-1 Sample space <br> 10-2 Probability and Counting <br> 10-3 Probability with Permutations and Combinations <br> 10-4 Probability and the Multiplication Rule <br> 10-5 Probability and the Addition Rule <br> 10-6 Conditional Probability |
|  | Module 11: Matrices (Honors only) | 11-1 Representing Data Using Matrices <br> 11-2 Operations with Matrices <br> 11-3 Multiplying Matrices <br> 11-4 Solving Systems of Equations Using Cramer's Rule <br> 11-5 Solving Systems of Equations Using Inverse Matrices |

Please Note:

- Teachers may use additional resources as noted on an individual teacher's syllabus. For specific questions regarding individual classrooms please contact the teacher for clarification.
- This guide represents a recommended sequence that can be used voluntarily by teachers. Dates may vary depending on individual classrooms. For specific questions regarding pacing please contact the individual teacher for clarification.
- Graduation Requirements: Students earning a standard high school diploma must earn at least one math credit in Algebra 1 or an equivalent course. The student must also pass the FSA Algebra 1 End of Course Exam (EOC) or earn a concordant score. More information on graduation requirements and concordant scores can be found here: Graduation Requirements for Florida's Statewide Assessments.
